

### Nike RSL Approval

All Evolution Series PVC-Free and phthalate-free inks included in the NX System, STI Silicone Ink System and STI Heat Transfer System are officially Nike RSL Approved for use by approved Nike printers that are required to print PVC-free inks on Nike garments. Nike factories may also view the Nike database in which they have access to confirm the 3<sup>rd</sup> party testing laboratory results. Individual products receiving approval are:

#### **NX System**

NX6504 Base  
NX6505 Process Base  
NX6550 High Opacity Base  
NX6700 Metallic Base  
NX6835 High Density Base  
NX6838 High Density Clear Base  
NX6820 Puff Base  
NX6555 Litho White  
NX6581 Optical White  
NX6582 Fast Flash White  
NX6825 Foam Grip Base  
NX6830 Suede Base  
NX6865 Fiber Mat White  
NX6500 Direct Print Series  
NX6550 RFU Series  
NX6551 ColorPro® Colour Mixing System  
NX Fluorescent Boosters  
NX6600 Process Series  
NX6700 Special Effects Ink Series  
NX6710 Defender Grey  
NX6711 Defender Black  
NX Additives and Reducers  
NX Pigment Concentrates

#### **STI Silicone Ink System**

STI7504 Mixing Base  
STI7550 Opaque Mixing Base  
STI7700 Clear Base  
STI7838 High Density Clear Base  
STI7581 White  
STI7502 Reducer  
STI7150 Catalyst  
STI7551 ColorPro® Colour Mixing System

#### **STI Silicone Heat Transfer System**

STI7904 Mixing Base  
STI7950 Opaque Mixing Base  
STI7900 Clear Base  
STI7938 High Density Clear Base  
STI7960 White  
STI7902 Reducer  
STI7150 Catalyst
