

599 LEGEND WHITE

Legend White is a high-performance white Phthalate free plastisol ink destined to become the white of choice by printers for 100% cotton fabrics of all colors. The optically-brightened white has excellent coverage, flashes fast and shears quickly under pressure for easier printing on both manual and automatic presses. Legend White provides excellent results as an under base, stand-alone or highlight white when printed through mesh counts ranging from coarse to fine. Its exceptionally smooth surface provides the perfect canvas to make overprint colors stand out when used as an underbase in spot color or simulated process prints.

CAUTION

Always test finished prints for curing, adhesion and desired look prior to beginning full production runs. Lancer Group International cannot guarantee the results or back claims that this mixed ink will test phthalate-free if any additive other than an additive manufactured by Lancer Group International is used to modify this ink. Test results by a third-party laboratory verifying all components used to produce this ink are phthalate-free and lead-free are available upon request.

TECHNICAL DATA

IDEAL FABRIC
100% Cotton

MESH
110-305/inch (43T-120Tcm)

SQUEEGEE
70/90/70 Triple Durometer
70 Single Durometer

STENCIL
Any emulsion compatible with plastisol inks.

CURING
Gel Temperature 240° F (116° C)
Full Cure 320° F (160° C)

PIGMENT LOADING
N/A

ADDITIVES
501PF Curable Reducer
502PF Viscosity Reducer 3% maximum.
507PF Soft Hand Additive

STORAGE
60°-90° F (15°-32° C) with lids closed tightly.

CLEANING
Enviro Series 2000 Green or Enviro Series TR Blend.
