

ENVIRO SERIES

SUPERWET MESH PREP

Enviro Series SuperWet Mesh Prep is a highly advanced formula mesh solution that completely degreases the screen fabric creating better adhesion for direct emulsions and capillary films. Made from natural ingredients, SuperWet Mesh Prep doesn't contain any harmful, or corrosive solvents or chemicals continuing Lancer's Group dedication to the environment and safety of our customers.

Directions for Use:

Simply wet both sides of the screen fabric with SuperWet Mesh Prep and scrub lightly. Rinse it completely away with water.

Available in quart, gallon, and five-gallon sizes.

Other products in the Enviro Series include Phantom 1000 haze and ghost remover, 311 Quick Strip emulsion remover, and 2000 Green and TR-Blend ink degraders.

Caution

All Enviro Series products have been tested and have provided excellent results with inks manufactured by Lancer Group International. Lancer Group International cannot guarantee the results or back claims that these products will produce the same results if used with any
