

Excalibur™

Technologically Superior Ink

Colortones® Pigment Concentrates

- **Pigments Concentrates for Water Based Textile Ink and Color Matching Purposes.**

Colortones are extremely concentrated pigments which can be used to tint or add color to most water based inks. Ideal for color matching purposes, Color Tones can also be used with Low Crock as a pigment dye system for fabric. Normally 10% Color Tones mixed in a water based ink base will yield very strong printing colors.

COMPONENTS OF COLORTONES PIGMENT CONCENTRATES

Colortones Pigment Concentrates can be used with all Excalibur Water Based Textile Inks. For technical details on Colortones Pigment Concentrates, see individual ink series (please review list below for available bases). For more information about Colortones Pigment Concentrates, please contact your nearest Lancer Representative today.
